## PROFILE

---

As a Student Currently Pursuing a Degree In Information & Communication Technolgy at Marwadi University.I am looking to leverage my skills and education to secure a challenging position in the technology industry.

## SKILLS

---

- App Development
- Backend Coding
- Project Management
- Communication
- Team Work

## INTRESTS

---

- Playing Piano
- AI Technology
- IOT
- Reading

## EXPERIENCE

### SDE Intern

December 2024 - Present

### TSS Consultancy Pvt. Ltd.

## PROJECTS

---

### GESTURE CONTROLLED CAR

#### *Arduino*

- Unique and Innovative Project that allows you to control the movements of car with Hand Gestures. The car is equipped with an Arduino microcontroller, a motor driver module, and a wireless module which needs proficiency in coding and hardware integration.

### VEHICLE SHOWROOM MANAGEMENT

#### *Java*

- Developed a software solution that streamlined sales and inventory processes for vehicle dealerships; empowered dealers to manage customer orders, vehicle records, deliveries, and test drive bookings in real-time, reducing lead times by 50%.
- Architected a comprehensive customer relationship management system that facilitated after-sales services and improved customer retention rate by 25%; built features which reduced manual errors and saved 10 hours per week for the sales team.

### SHOWROOM MANAGEMENT SYSTEM

#### *Html, CSS, JS, PHP, MySQL*

- A Reliable system that makes it easier for car dealerships to manage their inventory and sales, also provides an easy-to-use interface for controlling customer orders, used cars, and after-sales services.
- Dealerships can guarantee data correctness, maintain confidentiality, and carry out database activities effectively with DBMS integration.
- The system enables users to browse different models of cars, compare prices and features, book appointments, and track the status of their vehicles.

## HOBBIES

---

- Music
- Exploring
- Singing
- Gaming

## EDUCATION HISTORY

**Higher Secondary**

May 2009 - May 2021

**St. Francis High School**

**B. Tech in Information &  
Communication Technology**

September 2021 - Present

**Marwadi University**

## CERTIFICATIONS

---

- Arduino Step by Step Guide.
- R For Data Science
- Java Database Connectivity
- Git for Developers Using Github.
- Data Visualization with R
- Mastering Data Analysis with Pandas
- Essential Design Principles for Tableau
- Database Foundations
- Creating Dashboards and Storytelling with Tableau
